BIENNIAL REPORT

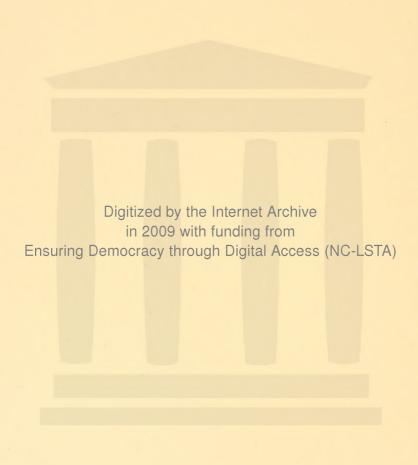

OF THE

SECRETARY OF STATE,

FOR THE

TWO FISCAL YEARS ENDING NOVEMBER 30, 1902.

STATE OF NORTH CAROLINA,

DEPARTMENT OF STATE,

RALEIGH, December 1, 1902.

To His Excellency, Charles B. Aycock,

Governor.

Sir:—I have the honor herewith to submit to you, as required by the Constitution, a report concerning this department for the two years ending November 30, 1902, and to request you to transmit the same to the General Assembly.

PUBLIC LANDS.

Within the last two fiscal years there have been issued from this office 732 grants of the public lands, on which account there has been paid to the Treasurer \$6,911.88. The following record of numbers of grants and amounts paid into the Treasury for the past few years may not be uninteresting:

No. Grants issued 2 years ending Dec. 1, 1882, 1,189—amounts paid Treasurer, \$10,912.87.

No. Grants issued 2 years ending Dec. 1, 1884, 1,329—amounts paid Treasurer, 13,186.73.

No. Grants issued 2 years ending Dec. 1, 1886, 990—amounts paid Treasurer, 5,975.69.

No. Grants issued 2 years ending Dec. 1, 1888, 893—amounts paid Treasurer, 9,493.49.

```
No. Grants issued 2 years ending Dec. 1, 1890, 1,453—amounts paid Treasurer, $15,570.43.

No. Grants issued 2 years ending Dec. 1, 1894, 1,358—amounts paid Treasurer, 16,831.11.

No. Grants issued 2 years ending Dec. 1, 1894, 703—amounts paid Treasurer, 5,200,73.

No. Grants issued 2 years ending Dec. 1, 1896, 547—amounts paid Treasurer, 9,234.46.

No. Grants issued 2 years ending Dec. 1, 1890, 665—amounts paid Treasurer, 6,337.13.

No. Grants issued 2 years ending Dec. 1, 1902, 732—amounts paid Treasurer, 6,311.88.
```

My predecessor, Dr. Thompson, referring to this land, says: "Whether the land granted is really public land, or, as the late Col. William L. Saunders suggested, only 'public land so-called,' this office has no means of determining. Grants are issued upon all entries properly made when sent to this office, accompanied by the purchase money and the fees. It is altogether possible for an entry to be made and a grant issued for land which is already the subject of private ownership, the question of title being left for the determination of the courts." This office frequently receives protests and letters from parties claiming that their lands are being entered, and even though the Secretary may be aware that the land is not subject to entry, and is being fraudulently taken up, the law requires him to issue grant if papers are properly made out. When land is entered the entry taker of the county is now required to post at the court-house door of the county in which the land is situated a copy of such entry, which copy shall remain posted for ten days. This advertisement is not sufficient, and it may be wise to have a descritpion of the vacant land posted for thirty days in three public places in the township where the land is situated, and also advertised for the same length of time at the court-house door and in a newspaper published in the county, or if no newspaper in that county, then the nearest newspaper.

It is frequently stated in complaints to this office that State lands are entered and claimants cut or sell timber therefrom and neglect to perfect their entries.

The Code, Section 2764, says: "Twenty-five cents shall be paid to the State Treasurer for every acre of land that may be entered: provided no person shall enter more than one hundred acres within any one year at that price: and if any person shall enter more than one hundred acres in the same survey or in any one year, he shall pay fifty cents for every acre he may enter." This was amended in 1885 by striking out the word "twenty-five" wherever it occurs and inserting "twelve and a half," and by striking out the word "fifty" wherever it occurs and inserting "fifteen," but this act was not to apply to swamp lands. These lands should be more valuable than the "swamp" lands belonging to the State Board of Education, which are to be sold for not less than fifty cents an acre, and I recommend that fifty cents shall be paid to the State Treasurer for every acre of land that may be entered, and the money received to be credited to the school fund. may be wise to provide by law that all "vacant" lands shall belong to the State Board of Education, to be sold for the highest price obtainable, but in no case for less than fifty cents per acre, sale to be approved by the State Board of Education before grant is issued. Some of these lands are well timbered and valuable.

OYSTER GRANTS.

Since I came into office several grants have been issued for oyster lands in Onslow county.

No oyster lands have been granted in the waters north of Core Sound, but I have received numerous inquiries about this territory and the oyster industry of North Carolina from residents of this and other States.

With satisfactory legislation and a stable policy on the part of the State, I believe much capital will be invested in the growing and canning of oysters and make this eventually a source of large revenue to the State.

CODES.

The supply of The Code is practically exhausted and the sale of same has been discontinued, as it was deemed best to reserve the volumes on hand for the use of the Legislature. The present Code was published in 1883, and should be revised by an able, learned and painstaking commission.

The older lawyers having their Codes annotated, and being familiar with the changes in the laws, do not feel the need of revision as keenly as do the younger members of the bar and the people of the State.

The county officials, magistrates, the business men and the people generally are necessarily kept in ignorance of the laws, as the old Code and acts of the various sessions of the Legislature are unobtainable or inaccessible to them.

GENERAL INDEX TO GRANTS.

My predecessor, Dr. Thompson, in his report December, 1900, writes as follows: "The general index of grants in this office is complete up to 1883 or 1884, ending with book. No. 173. The last seventeen volumes of grant records are not found upon the general index, and in searching for grants in these the index of each individual book has to be examined. I suggest, therefore, that the General Assembly should, by special appropriation, make provision for bringing the general index up to date, which being done, the Secretary of State could carry it forward from year to year without difficulty."

This indexing has been done, and all the grants are indexed up to 1901. This work was very carefully and satisfactorily done by A. J. Feild, Esq., at a cost of \$187.80, and was paid for out of the money allowed this office for extra clerical assistance.

SUPREME COURT REPORTS.

During the last two fiscal years there has been paid into the State Treasury on account of the sale of Supreme Court Reports \$7,026.89.

Several years ago, the older Reports being out of print and unobtainable by those coming to the bar, the General Assembly passed an act authorizing a reprint of the volumes out of print, to be paid for out of funds arising from the sale of Reports. Under this statute some thirty volumes' were reprinted by the then Secretary of State. He was requested by members of the bar to have the future volumes annotated by citing under each case all subsequent cases referring to it, and also to prefix the table of cited cases, which table was lacking in all the earlier Reports. Being unable to get any active member of the bar to do this work at a price which the Secretary felt authroized to pay, the work of annotation was undertaken by Judge Walter Clark of the Supreme Court Bench. Up to this time thirty-two volumes have been reprinted with annotations by Judge Clark. these the following have been reprinted (or are in press) during 1901 and 1902: Vols. 20, 21, 52, 58, 59, 75, 77 and 81.

These annotated reprints are sold at \$1.50 per volume and are of great benefit to the legal profession, and especially to the younger members.

The work of issuing annotated reprints will be continued as the funds authorized by law permit, and in the next year or two the following volumes will be reprinted: Nos. 14, 18, 19, 47, 48, 49, 50, 51, 54, 57, 63, 64, 65, 70, 71, 72, 73, 74, 76, 80, 84, 85, 86 and 87.

The Legislature of 1899 reduced the price of Reports from \$2 to \$1.50, which has greatly increased their sale. Reports are sold to book dealers within the State, such dealers

paying the cost of packing and transportation, at 12½ per cent. discount.

The sale of Reports for the past few years has been as follows:

Two years ending December 1, 1882...\$3,352.40
Two years ending December 1, 1884... 4,626.90
Two years ending December 1, 1886... 3,253.00
Two years ending December 1, 1888... 3,762.49
Two years ending December 1, 1890... 4,002.02
Two years ending December 1, 1892... 2,618.01
Two years ending December 1, 1894... 621.12
Two years ending December 1, 1896... 6,026.89
Two years ending December 1, 1898... 5,759.55
Two years ending December 1, 1900... 7,692.59
Two years ending December 1, 1902... 7,026.89

LAWS, JOURNALS AND DOCUMENTS.

The Laws, Journals and Documents of the General Assembly of 1901 were printed in the following numbers: Public Laws, 8,000 copies; Private Laws, 1,200 copies; Senate Journals, 450 copies; House Journals, 450 copies; Public Documents, 400 copies. These have been distributed as the law directs, and I have received and paid into the Treasury on account of the sales of same during the two fiscal years past \$395.06.

IMPEACHMENT PROCEEDINGS.

Resolutions of the Legislature ordering the publication and distribution of the proceedings of the Court of Impeachment provided for the publication of one thousand copies, and that copies of these proceedings be sent to every member of the General Assembly and its officers, to each of the Supreme and Superior Court Judges, five copies to the State

Library and to the Supreme Court Library each, and one to each of the Governor's Council and one copy to each lawyer engaged in the trial. The Secretary of State is authorized to sell any copies not disposed of as aforesaid at the price of two dollars. On this account I have paid into the Treasury the sum of \$8.

This office has received numerous requests from State institutions and from libraries in this and other States for copies of this work, which under the act I am not permitted to supply. I would suggest that the Legislature authorize the Library Trustees to furnish this work to such libraries and institutions requesting the same as they may think proper.

ENROLLED BILLS.

The Legislature of 1901 in its closing hours passed a bill abolishing the office of Enrolling Clerk and transferred the supervision of the enrollment of bills to the Secretary of State. This act allows him to employ an assistant with authority to employ such copyists as may be needed. does not authorize the assistants necessary to conduct that The full time of the one assistant allowed should be consumed in personally receipting for and receiving bills from the two branches of the General Assembly, and the personal conducting of the same to the enrolling office. And in addition he should be ready at all times to wait upon any member of the Legislature who calls at the office seeking information in regard to any bill. He should give his personal attention to the ratification of all bills and to the depositing of same when ratified in the office of the Secretary of State. Assistants will be necessary to supervise and keep the two large records used for entering bills; dividing bills and assigning them to the numerous copyists; for proof reading, etc.

There has been much complaint of the Enrolling Clerk's office in the past. If placed under my direction I shall em-

ploy none except such persons as are known to me to be competent. If under my supervision, I should prefer to have the bills type-written and delivered immediately to the State Printers, and have the printed bills signed by the President of the Senate and the Speaker of the House and permanently bound as the original record. Copies of these bills would be distributed, which would afford an opportunity to the members interested in any bill to read and examine it before being ratified. Thus all the laws would be in type and could be printed from the same forms and distributed immediately upon the adjournment of the Legislature.

HALL OF RECORDS.

More room in which to file records and valuable papers belonging to this department and to store books in charge of the Secretary of State is imperatively necessary. This want has been felt for years and is becoming more grievous annually.

I beg leave to invite your attention to the recommendations of my predecessor, Dr. Cyrus Thompson, and to quote from him. In his report of December 1, 1898, he says:

"I desire especially to suggest that you recommend to the General Assembly the purchase of a suitable piece of ground, and the building of a warehouse for the use of the State. A suitable lot, I presume, could be had near the Supreme Court Building.

"The necessity of this is apparent when it is stated that this office, although charged with the care of the Laws, Journals and Documents and the Supreme Court Reports, has no place in which to store the same except as some place, however unsuitable and inconvenient, may be rented. Nor has the State any place for the storing of paper to be used in the public printing. It may be further stated that this office has in its keeping many old maps, books and manuscript

papers, which though seldom demanded, are, at least, of historical interest and value, and must be taken care of, for which we have no suitable storage. And what is true of this department is true also of the other offices in the Capitol.

"When I came into this office I found some papers, the Supreme Court Reports, the Laws, Journals, etc., stored in a warehouse on Hargett street, at a cost to the State of \$30 a month. This building was wholly unsuited for the purpose to which it was put, by reason of the fact that it was badly out of repair, and whatever was stored in it suffered damage, not only from bad storage, but also from the weather.

* * * * * * * * * *

"In removing the Supreme Court Reports from the ware-house on Hargett street I found an unbound lot of old Reports of what is known as the Mason Collection. Many of those were so badly damaged as to be utterly worthless. Such of them as were worth binding I had rebound and stored along with the others."

In November, 1900, he again emphasizes the need of storage room as follows:

"I again call attention to the fact that the State is without suitable storage room for the printed Laws, Journals and Public Documents and for the Supreme Court Reports, and that this office, as well as the other offices in the Capitol, has insufficient and inadequate storage room for a mass of old matter which, though seldom demanded, and perhaps of little practical use, may be of some historic interest and value, and should be well provided for. It would be a wise piece of economy for the General Assembly to build a suitable storage room for books and papers of the character mentioned.

"This department is still renting the fourth floor of the Fisher Building at \$7 per month for storage of books. The room is inconvenient and unsatisfactory, besides being insufficient. Books or papers deposited in the basement of the Supreme Court Building are subject to damage necessarily."

I wish to endorse these suggestions and to impress the urgent need of some immediate action being taken to provide properly for the care of these books.

In the fourth story of the Fisher Building there are, it is estimated, about thirty-five tons of books; in the cellar of the Agricultural Building many books belonging to this office are stored and liable to damage; in the room of the third floor of the Capitol, formerly occupied by the Superintendent of Public Instruction, are books and many historical papers and much of the manuscript from which Col. Saunders compiled the Colonial Records, all of which is in a damaging condition for want of protection and suitable storage room. (These papers should be chronologically arranged and bound). All available space in the Secretary of State's office is filled with books almost to overflowing.

It has been necessary again to rent the Stronach Warehouse, which is very unsuitable, for an arsenal and storage room. In the old arsenal are many books belonging to the State, and this building will be used in 1903 to store the Laws and as a place for boxing and shipping the same.

There is much valuable matter boxed, stored away and piled up in corners, being destroyed by moths, dampness and dust, which should be made available. Aside from the higher duty of preserving our records, manuscripts and matter (now inaccessible, in some cases perishing) which cannot be replaced, and which, from an historical point of view are invaluable, it would be a matter of economy to provide suitable and adequate storage room. The State in the last two years (since I have been in office) has been compelled to make the following outlay for unsuitable and inconvenient storage rooms:

1901.

Rent of Stronach Warehouse, \$30 per month......\$360.00 Rent of fourth floor Fisher Building, \$7 per month, 84.00 Insurance (\$28,500) on Supreme Court Reports... 360.00

\$704.00

1902.

Rent of Stronach Warehouse, \$30 per month......\$360.00 Rent of fourth floor Fisher Building, \$7 per month, 84.00 Insurance (\$28,500) on Supreme Court Reports.... 447.75

\$891.75

In addition is to be added the cost of insurance on military supplies, etc., paid through the Adjutant-General's Department.

Thus, as a business proposition, we see it would be economy to erect a Hall of Records, as we are annually paying more on unsuitable and inadequate storage room than the interest on a sum sufficient to erect this much-needed building.

I would call attention to the fact that there is a vacant lot 52½ by 105 feet, belonging to the State, on the north-west corner of Salisbury and Morgan streets, which was purchased as a site for an arsenal, and I respectfully suggest that the Legislature, in its wisdom, may find it an actual economy to build there a substantial three-story fire-proof building, to cost not more than \$20,000, to be built and finished during the year 1903, under the control and supervision of the Board of Public Buildings and Grounds. The first floor and basement could be used for an arsenal, Adjutant-General's office and office for the Commissioner of Labor and Printing. The second floor could be given over to the Secretary of State for filing papers not immediately in use, maps, old papers, etc., also for storage of Supreme Court Reports, which should be

assorted and arranged by numbers; and for the Laws, Public Documents and publications of the State, which should be separated and stored according to dates. The third floor for legislative committee rooms, etc.

PERMANENT ROLL OF REGISTERED VOTERS.

Chapter 550, section 4, Laws 1901, reads as follows:

"It shall be the duty of the several Clerks of the Superior Courts of this State to certify to the Secretary of State within thirty days after the close of each registration, a copy of the said roll in his office, and it shall be the duty of the Secreary of State to record, in a book provided for that purpose, the facts set out in such certified copy, and keep the lists from each county separate. The Clerk of the Superior Court shall keep the lists from each township in separate columns. The books kept by such Clerks and the Secretary of State shall be plainly lettered 'Permanent Roll of Registered Voters,' and they shall prepare a complete alphabetical index to the same."

In sending books, blanks, etc., to Clerks of the Superior Court for list of registered voters I had books arranged by townships, and the certified lists are reported by townships, alphabetically arranged in books with name of county on the book. This seems to meet every intention and purpose of the law, and if, in the wisdom of the Legislature, it is now unnecessary to make the alphabetical index, as required under section four, it will save the State between \$1,500 and \$2,000, which will be the cost of complying with the letter of section four, and for which it will be necessary to provide clerical help.

TRADE-MARK LAW.

This office is continually receiving inquiries relative to North Carolina trade-mark laws and also applications for the registration of trade-marks and labels. I respectfully suggest that a modern, liberal "Trade-mark Law" could be made a convenience and protection to concerns doing business in the State and a source of considerable revenue to the State.

RAILROAD COMPANIES.

The following railroad companies have filed their Articles of Association in this office, according to chapter 49 of The Code and amendments thereto during the past two fiscal years: Winston & Wadesboro Railroad Co., Kinston & Carolina Railroad Co., North Carolina Central Railroad Co., Carolina & Tennessee Southern Railway Co.

CORPORATIONS.

The industrial advancement of North Carolina in the past few years has been especially marked, and this has been emphasized by the rapid increase in industrial enterprises and the almost daily inquiries received by this office as to the State's resources and requests for information about our corporation laws. A combination of capital with limited individual liability seems now to be the most satisfactory mode of commercial and industrial progression.

Our citizenship is conservative but advancing; we invite capital; our laws are just and favorable; the courts are impartial; the press is friendly to immigration and each part of the State is vieing with the other in extending hospitality to investment from other States.

The eagerness with which our people welcome capital, giving building sites, rights of way, voting bonds, subscribing to bonds and offering other inducements to corporations, is an eloquent denial of the too flippant charge that we would repel investments and impose upon corporations. In instances where hostility is shown, the corporation itself is to blame.

The policy of the State is to give capital absolute protection, but let it understand that it comes to foster, not to destroy.

In view of the misunderstanding and misrepresentation in certain quarters of our present corporation law, I will briefly mention some of its most important features.

The last Legislature revised the corporation laws of North Carolina, and to-day we have one of the most satisfactory corporation codes in the Union; this fact is recognized by other States, the Secretary of State having frequent calls from many States for copies of this law, which is highly commended for its liberality, justice and comprehensiveness.

The purpose of this law is to properly regulate corporations, allowing them the largest liberty, but at the same time providing such safeguards as the public welfare may require.

Under this law the organization taxes are the same as paid by corporations in the State of New Jersey, which State, it is believed, is not unfriendly to corporations.

Under our old laws there was an organization tax of twenty-five dollars paid to the Clerk of the Court of the county where the corporation was formed, regardless of the amount of the capitalization of the company. Now there is charged a tax of twenty-five cents for each one thousand dollars of capital stock authorized, but in no case is the tax less than twenty-five dollars. This prevents fictitious capitalization, as was often the case under the old system. Benevolent, religious, educational or charitable associations or companies without capital stock are relieved from this tax.

All companies are now required to make annual reports showing the names of directors and officers, agent upon whom process can be served, place of business, character of business, authorized capital, amount of capital stock actually issued, and whether paid in cash or property. This cannot be objected to by solvent corporations, is a protection against fraud or imposition and supplies a source of information to those

persons who have a right to know, which knowledge could not be obtained under the old system. These reports are the same as those required of New Jersey corporations.

All corporations are required to file copies of the original certificates of incorporation in the office of the Secretary of State; this prevents conflicts, allows investigations, etc. Until 1901 there was no record office for corporations and it was impossible to obtain information as to the character of the charter, the nature of business and the number and names of corporations doing business in North Carolina.

The Secretary of State annually furnishes the county commissioners of each county a list of the corporations whose principal office is located in their county, with the amount of capital stock issued, which returns, made by the corporations themselves, are the basis for franchise taxation.

A franchise tax on corporations is paid in the county where the corporation has its principal office according to the following graduated scale:

On \$25,000 or less, \$5.

Over \$25,000 and not exceeding \$50,000, \$10.

Over \$50,000 and not exceeding \$100,000, \$25.

Over \$100,000 and not exceeding \$250,000, \$50.

Over \$250,000 and not exceeding \$500,000, \$100.

Over \$500,000 and not exceeding \$1,000,000, \$200.

Over \$1,000,000, \$500.

The companies themselves estimate and appraise their own capital stock at its cash value (due allowance being made for impairment of capital when necessary) and deduct therefrom the assessed value of all real and personal estate upon which the corporation pays tax, thereby preventing double taxation. The State tax on this excess is twenty-one cents for general purposes and four cents for pensions on the one hundred

(\$100) dollars valuation, which is paid direct to the State Treasurer. In addition to this there is a tax of eighteen cents on the one hundred (\$100) dollars valuation for public schools, which is paid in the county where the principal office of the company is located. This report and appraisal is made to the Auditor and is kept by him as private. All real and personal property of every corporation is taxed the same as the real and personal property of an individual and is assessed and the tax levied in the county where such property is found.

North Carolina taxes corporations fairly and without discrimination. We ask them to bear their share of the public burdens, and there is not a law upon our statute books that was conceived in a spirit of injustice to any special interest; if there is, the State stands ready to correct any such injustice. It is the duty of every corporation to contribute to the support of the government. There should be no discrimination, directly or indirectly, but each should bear its part of the burden of taxation, the State taxing "by a uniform rule all moneys, credits, investments in bonds, stocks, joint stock companies or otherwise and also all real and personal property according to its true value in money"; this would give us a lower tax rate, and all causes of complaint should disappear, as such just and equal taxation cannot meet with honest opposition. "No man or set of men are entitled to exclusive or separate emoluments or privileges"; and all men, all interests, all corporations in this State have justice and equality before the law.

The present law prevents the holding of stock (except certain construction companies) by one corporation in another. This prevents mergers and the absorption of weak companies by the stronger ones, thereby preventing the creation of trusts in this State.

Under the revised law the powers of corporations have been

largely extended. Our organization taxes are graduated, meaning largely increased and increasing revenue to the State. Greater protection is given to individual stockholders and at the same time the rights of the corporations are guarded. Dissolution of and settlement of the affairs of the corporations (which was not provided for under the old law) is simplified and facilitated. The organization of companies with foreign capital is encouraged; all stockholders but one may be non-residents; the meetings of directors may be held outside the State, and all the books (except stock and transfer books) may be kept outside the State.

Under our laws now railroads, banking, insurance, streetrailway companies and building and loan associations can be chartered without waiting for legislative enactment.

In view of the great amount of time consumed by the General Assembly in the passage of bills creating private corporations, the following provisions in our Corporation Law seem eminently wise and proper:

"Sec. 8. Any number of persons, not less than three, who may be desirous of engaging in any business, or of forming any company, society or association whatever, not unlawful, except railroads, other than street-railways, or banking, or insurance, shall be incorporated in the manner following, and in no other way (except in those cases where, in the judgment of the Legislature, the object of the corporation cannot be attained under the general law, and in all such cases the act creating the corporation shall contain a preamble, in which shall be set forth specifically and definitely the particular object of the corporation, or provision in the proposed charter, which cannot be attained under the general law); that is to say," etc.

"Sec. 97. Every bill introduced in either house of the General Assembly to incorporate any private corporation shall be accompanied by a receipt from the State Treasurer,

showing that there has been paid an organization tax in double the amount prescribed in the foregoing section (Sec. 96. * * * For certificates of incorporation twenty cents for each thousand dollars of the total amount of capital stock authorized, but in no case less than twenty-five dollars, etc. * * *), and in addition thereto each private corporation (railroad, insurance and banking companies excepted) shall, before organization, file and have recorded a copy of the bill creating it in the office of the Secretary of State, and shall thereupon become subject to the provisions of this act."

The business men of the State and elsewhere recognize the liberality of our laws, and realize that North Carolina is fostering every legitimate industry and is inviting capital to help develop its resources, assuring it protection and fair treatment. This is shown by the growing number of corporations in North Carolina, much of the capital of which is foreign.

The following table shows the corporations organized in North Carolina which were chartered by this office:

For the year ending Nove	ember 30, 1893 21
For the year ending Nove	ember 30, 1894115
For the year ending Nove	ember 30, 1895133
For the year ending Nove	ember 30, 1896151
For the year ending Nove	ember 30, 1897147
For the year ending Nove	ember 30, 1898156
	ember 30, 1899207
For the year ending Nove	ember 30, 1900306
For the year ending Nove	ember 30, 1901327
For the year ending Nove	ember 30, 1902395

All corporations, chartered under the general law are required to file the original certificate of incorporation in the office of the Secretary of State and the original is kept on file and a certified copy issued to the new company, which

is recorded with the Clerk of the Court of the county in which the corporation is to have its principal office. the enactment of the law of 1901 these certificates were filed with the Clerks of the Court of the various counties of the State, whose facilities for taking proper care and for affording necessary information concerning them were of necessity limited. There was no general depository for such original certificates, and on this account many errors and omissions were liable to creep into the certified copies which were sent to the office of the Secretary of State for recording. objectionable features have been done away with under the new system, and now all parties interested, who desire to do so, can get accurate information concerning any active business corporation in the State by application to the Secretary of State, showing the name of the company, the incorporators, the amount subscribed by each, the character of the business to be transacted and other similar information from one general corporation headquarters.

Corporations have given them by the State certain powers and rights which are not conferred by the Legislature on individuals, and in order that these privileges be confined strictly to those allowed by law, it is necessary that some one who has made a special study of this branch of the law should have the power to pass upon certificates of incorporation before a company is incorporated. Under the old system of incorporating companies all certificates were passed upon by Clerks of the Court, and some of them being unfamiliar with the principles of corporation law, rights and privileges were sometimes granted to corporations which were not guaranteed by the laws under which such companies were incorporated. objectionable feature has been removed by placing the original certificates in the hands of the Secretary of State, who has ample opportunity to make a careful study of the laws relative to incorporating companies and to examine with care the provisions of the certificates submitted, and, if necessary, to consult the Attorney-General at any time, thus giving to all companies formed the full benefit of all the rights to which they are entitled, but at the same time to prevent them from incorporating provisions in their charters which are repugnant to the spirit of the law.

The original certificates are now carefully recorded and filed in the office of the Secretary of State, and in case of litigation or misunderstanding in the future relative to provisions contained therein, they can always be inspected, and, if necessary, certified copies secured, whereas under the old system the copy filed and recorded in this office was itself a copy sent in by the Clerk of the Court, and the original could not be found outside of the county in which the company was doing business. Thus, under the new system, every advantage which an original writing has over a copy prevails and the plan and manner of incorporating companies is in every way expedited and simplified.

Annexed is a list of the corporation certificates filed in this office during the two fiscal years ending November 30, 1902.

There is also appended at end of this report an alphabetical list of the corporations now doing business in North Carolina, together with such information relative thereto as can be secured from the reports filed in this department. Some of these reports are not entirely satisfactory or complete.

Replying to notices sent out as required under section 48 of the Corporation Law, a number of corporations, instead of making a report, state that they have gone out of business or are no longer doing business as a corporation, etc. There is a misapprehension on the part of these companies regarding the necessary steps to be taken in this matter, as they seem to think that it is only necessary to effect a settlement among themselves and to announce that the corporation has ended its existence. The State in granting corporate powers to these concerns enters into a coutract with the corporators,

and prescribes certain forms which a corporation must comply with to organize, certain laws for the government of the same, and sets out a definite mode of procedure to be followed in case of dissolution. The State is a party to the dissolution as well as to the organization of a corporation, and the life of a corporation cannot be ended without the assent of the State.

CORPORATIONS FORMED UNDER CHAPTER 16, VOLUME I OF THE CODE AND LAWS AMENDATORY THEREOF, FROM NOVEMBER 36, 1900, TO APRIL 1, 1901.

(Information as to agents in charge, capital stock, etc., taken from Reports filed in 1901).

^{*\$}i is charged under section 96 of the Corporation Law for filing annual report. A certificate under seal is given upon filing report. For every seal affixed fifty cents is required by law to be paid into the Treasury, so out of every dollar collected for filing report, fifty cents of same is credited to seal account, as shown above.

\$20,614.39

The compensation of the Secretary of State for the last two fiscal years has been as follows:

Note.—The amounts of money received by this department (except for entries of vacant lands) are paid to the Treasurer on the first of the month following the month in which they are collected, and so appear in his accounts. For instance, money received by the Secretary of State for November, and entered in the November accounts of this office, appears in the December accounts of the Treasurer, and so for the other months of the year.

CYRUS THOMPSON.

November 30 to January 15, 1901.

CLERICAL ASSISTANCE.

\$3,469.72

Mr. George W. Norwood is Chief Clerk in the Department of State at a salary of one thousand (\$1,000) dollars a year.

Mr. W. S. Wilson is Corporation Clerk at a salary of twelve hundred (\$1,200) a year.

I wish to take this occasion to publicly thank these gentlemen for the ready, faithful, efficient and satisfactory service they have rendered me in the discharge of the duties of this office, which at times have been confining and laborious and the work not limited to office hours.

The extra clerical assistance allowed by law has been expended as follows:

Reserved for making Permanent Roll	
There is not making a commence from	
	\$1,000,00

\$1,000.00

In the discharge of the duties of this office I have endeavored to transact all business promptly and faithfully. I have managed the affairs of the department as economically as I could consistent with dispatch and accuracy. I hope this report will be satisfactory and that the General Assembly in its wisdom may consider favorably some of the recommendations herein.

With much respect, I have the honor to be Your obedient servant.

Secretary of State.

COMPILED BY W. S. WILSON, CORPORATION CLERK.

Note.—The reports, from which the information concerning the foregoing list of corporations is gathered, are made under section 48 of the Corporation Law, Chapter 2, Public Laws 1901. Some corporations have failed to file these reports.

This list of corporations is not entirely satisfactory or complete, but is as nearly correct as can be made from the records of this office. There is no way, at present, of knowing just how many corporations are doing business in the State, as this is the first complete list ever attempted to be made.

Persons knowing of other corporations doing business in the State will confer a favor on this department by reporting the names and addresses of such companies.
